General Information

Tool Name:	JCM Tool Suite Standard Edition		SW.Req. No.	C25-0131-02	G25-083-01			
Product:	UBA/UBA-RC/iVIZION/ iPRO/iPRO-RC/TBV/TBV-R/ EBA-40/DBV-400/500/500-R/ UBAPRO-SS/UBAPRO-RC(RS)- TQ/RBA-40C/VEGA-PRO /UBAULTRA		Date: (mm,dd,yyyy)	09.18.2025	Rev: A2			
Software Version	---							
	ApplicationName:	JCM Tool Suite Standard Edition						
	Version:	1.56.1.0						
Operating System:	Windows 7 or later.							
Communication:	USB 1.1 (USB Class Definitions for Communication Devices Version1.1)							
Functions:	<ul style="list-style-type: none"> - provides services such as download, statistics and sensor calibration via the front USB port of the UBA. - provides services such as download, statistics, sensor calibration, performance test, Recycler Maintenance via the front USB port of the UBA-RC. - provides services such as download, statistics, sensor calibration, performance test, utility via the front USB port of iVIZION. - provides services such as download, statistics, sensor calibration, performance test, utility via the front USB port of iPRO. - provides services such as download, statistics, sensor calibration, performance test, Recycler Maintenance via the front USB port of the iPRO-RC. - provides services such as download, statistics, sensor calibration, performance test, Event Log via the front USB port of the TBV. - provides services such as download, statistics, sensor calibration, performance test, Event Log via the front USB port of the TBV-R. - provides services such as download, statistics, sensor calibration, performance test, Event Log via the front USB port of the EBA-40. - provides services such as download, statistics, sensor calibration, performance test, Event Log via the front USB port of the DBV-400. - provides services such as download, statistics, sensor calibration, performance test, Event Log via the front USB port of the DBV-500. - provides services such as download, statistics, sensor calibration, performance test, Event Log via the front USB port of the DBV-500-R. - provides services such as download, statistics, sensor calibration, performance test, utility via the front USB port of UBAPRO and UBAPRO-RC(RS)-TQ, UBAPRO-RC200. - provides services such as download, statistics, sensor calibration, performance test, utility via the front USB port of RBA-40C and EBA-40C. - provides services such as download, statistics, sensor calibration, performance test, utility via the maintenance USB port of VEGAPRO. - provides services such as download, statistics, sensor calibration, performance test, utility via the front USB port of UBA Ultra and UBA Ultra-RC(RS)-TQ. 							
Modifications:	<p>V1.55.1.0 → V1.56.1.0</p> <ul style="list-style-type: none"> • ALL Models --- ToolSuite V1.55.1.0 → V1.56.1.0 Supported UBA Ultra connection. Add a menu to the first screen of ToolSuite to check the DIPSW setting for forced DL. • ALL Models --- Download tool V1.22.0.0 → V1.32.1.0 Supported UBA Ultra download function. • Some Models --- ACCLOAD3 V3.21.0.0 → V3.22.0.0
